"The results of diminished nerve-force comprise headache, loss of sleep, indigestion, easily induced fatigue, disinclination for bodily or mental exertion, loss of memory and a lack of vigour in all physical functions. To overcome these conditions science has produced Sanatogen. The gain through its aid is permanent; it builds up, fortifies and strengthens because it is a real cell food."

These are the words of DR. CLAUDE L. WHEELER, the well-known scientist. They prove what Sanatogen will do for you. And remember that DR. WHEELER is only one of 24,000 physicians who tried Sanatogen and wrote to the makers about the splendid results obtained.

A tonic, the value of which has been proved so often and so clearly, is surely worth while trying.

Start taking Sanatogen to-day and see how it will revitalize you, how it will overcome that debility and listlessness, how it will give you sound sleep at night and healthy energy in the day.

COTTON.

Bombay, June 11.

A further sharp drop of 29 points in old crop and 52 to 48 points in new crop in New York futures has been reported to-day. The market declined on long liquidation and short selling on more favourable weather reports. Liverpool has been reported 4 to 2 points lower.

Messrs. Thomas Smith and Co's report:—

The American crop advices continue favourable with rather less demand. The Lancashire mills are working part short time. The coal strike in England still continues causing a very unsettled state of affairs.

Messrs. Umrigar and Vesugar's New York friends Messrs. A. Norden and Co. cable under date 10th inst. as under:—

"Crop prospects favourable. Looks lower tempararily."

Messrs. Breul and Co. have received the following cable dated 10th inst. (4.45 p.m.) from their Liverpool friends Messrs. Reynold and Gibson:—

"Idle featureless market, looks like sagging immediate future."

In sympathy with a sharp decline reported in New York futures the Marwari Bazar opened this morning at Rs 4 lower with Broach July/August at Rs 343. At the opening Bazar operators were sellers and values declined to Rs 342. On buying by Commission Houses and shroffs the market advanced to Rs. 343 1/2. On Liver- opening quotations being reported lower than expected the market gave way to Rs. 342 1/2 and closed at the same rate. At Cotton Green the market opened at Rs. 342 and going up by half a rupee declined to Rs. 341 1/2 on selling by shroffs and a Japanese firm and closed at Rs. 342. Commission Houses were moderat buyers.

Broach April/May opened at Rs. 320 and eased to Rs. 318 1/2 on shroffs and general selling. On several Commission Houses buying the market recovered to Rs. 320 and closed at Rs. 319 1/2. Oomra July opened at Rs. 326 and advanced to Rs. 328 on shroffs and Commission Houses buying and closed easier at Rs. 326. Oomra January opened at Rs. 303 and declined to Rs. 302 on selling by a Japanese firm. On Commission Houses buying the market improved to Rs. 303 1/2 and closed easier at Rs 303 1/2. Bengal July and January were quoted Rs. 256 and Rs. 248 respectively.

Our market for ready cotton remained steady yesterday with a good demand for high grade cotton only.

WEEKLY REVIEW.

COTTON.

WEEKLY REVIEW.

FOREIGN MARKETS.

During the week under review Home markets have been fluctuating but on the whole show a sharp fall in New York and a moderate decline in Liverpool as compared with last week Early the market advanced on some scattered buying. Later the prices gave way on shorts selling on reports of more favourable weekly weathe rreport. At the close the market was easier.

The American market has again moved about in a narrow radius and in a restless fashion, and, though what change there is on the week is in a slightly downward direction, the tone remains fairly steady as when we wrote last. Old crop positions have, as a result of short covering, displayed a better feeling than new crop contracts which latter have suffered in prices in consequence of more favourable weather conditions which created short selling.

As regards crop prospects, the weekly Government weather report to hand states that satisfactory progress has been made both in growth and cultivation, and those portions of the Cotton Belt which were suffering from drought [illegible] have now had good rain [illegible] further rain is still [illegible] the Eastern Belt and Arkansas. At the moment it is purely a weather market, and as there are no indications at the moment of any change in the climate conditions in Texas the probabilities are for a continuance of the present movement, but we consider it is rather dangerous to follow it. It must be remembered that the existing conditions are normal and are generally assumed to be the best for the cotton plant during this month.

However, the real test to the crop will come during the latter half of July and the month of August. If conditions are unfavourable, then undoubtedly there will be a bad scare, but, on the other hand, should the type of weather ensue which promotes the well-being of the plant in its later stages and eventually produces another large crop, this will naturally put the market in a distinctly weak technical position.

To our mind, the market for the time being remains purely a question of weather, as we have indicated above, and we certainly do not look for any material movement in values in the immediate future. We rather expect some sagging at the moment, as, generally speaking, we consider the crop is at present doing fairly well. This is generally the case in June, but it is the weather in July and August which will make or mar the presen tyield. It is the knowledge of this fact, and the fear of drought in that period, coming on top of the undoubted shortage of sub-soil moisture and the danger of weevil, which prevents even those who hold "bearish" views exercising their energies in this direction, whilst it undoubtedly gives reason for taking advantage of easy markets to enter into "Bull" engagements, as whatever happens ultimately, the probabilities of a scare are immense during the next six or seven weeks.

As regards the condition of the local market, the July contracts look fairly strong in view of the fact that the available supply of nice qualities is gradually diminishing. For new crop deliveries we are inclined at the moment to take a moderately "bearish" view and think that the future course of prices in these contracts will depend largely on new crop developments in America from time to time, and with the whole of the growing period still before us it is futile to form any definite opinion for the long run.

The demand for Ready Cotton is still maintained and statistically the position is undoubtedly strong as the bulk of the stock now remaining on hand is of low grade and undesirable cotton.

The following were the changes in the Home markets as compared with last week:—

PIECE-GOODS.

The Cloth market during the past week has been very quiet. There has been a total absence of demand, wholesale as well as retail, and had it not been for the firmness displayed by the Manchester market, value swould have declined here. [illegible]s from Manchester when tested were decidedly firmer by three to four per cent., and some of the Shippers required amonth's latitude in the shipment time. Arrivals during the past few weeks have been scant and stocks are not heavy, but as the offtake is very poor, merchants would be too pleased to meet the requirements of buyers even at some concessions. In such circumstances it is natural that fresh forward business has been neglected. All hopes are now centred on the monsoon and if it makes a good beginning, it will no doubt give some impetus to the trade. Owing to the uncertainty regarding the future outlook, merchants have not been inclined to transact business amongst themselves, and brokers have been passing idle times.

Grey Shirtings of Manchester make have been nominally steady. Drills have shown no change. Grey Jacouets have been slightly firmer. Liepmann's White Shirtings No. 1500 have appreciacd in value. There has been no alteration in the values of White Mulls and Nainsooks owing to the absence of business. Originals Chocolate Jean Prints have been quoted at 7 1/4 annas bazaar rate.

PIECE-GOODS.

The Manchester Market has shown a firmer tendency. Owing to the absence of business in yarns of fine counts, spinners in Bolton are turning their attention to coarse descriptions. The continued unsatisfactory state of the yarn market and the difficulties of obtainings fuel supplies, have resulted in the decision of the Federation of the Master Cotton Spinners' Association after a protracted meeting at Manchester to close down the Lancashire Mills Spinning American cotton on alternate weeks. A scheme will be inaugurated on Monday when the mills will close for a week.

Local Mill Cloths have been quiet, with moderate clearances. The demand has been slack, but if the monsoon turns out favourable the outlook will be brighter The Mills under the agency of Messrs E. D. Sassoon and Co. have been selling in small lots Calendered Shirtings at Rs. 0/16/6 direct to consumers. It is reported that thi week. the Bombay Dyeing Mills have sold about 8,000 bales of their standard cloths on the basis of Rs. 1/0/3 per lb for Calendered Shirtings. Merchants could not possibly offer a better price in view of sales made direct to consumors by Messrs. E. D. Sassons and Currimbhoys, as their profit ha to be added to the purchase price, which would not stand competition when selling. The above transaction has been made by merchants simply with a view to keep the qualities running, as the risk involved in purchasing forward goods in quantity is too great to be taken up at present. It is also reported that about 500 bales of "X" quality Shirtings have sold by the Swan and Finlay Mills at Re. 1/1/0 per lb.

The Imperial Bank of Indiarate of interest on demand loans on Government Paper has been reduced to four per cent.

YARN MARKET

Bombay, June 11.

There is nothing of special interest to report in our market as the prices are continually remaining unchanged all round. The demand does not show any improvement as yet and as cotton has ruled very steady the effect has been that the prices have stopped declining any further. In the case of coarse spinnings such as from 2s. to 8½ some confidence is created amongst the dealers on account of improved enquiries, but in the case of further counts business is almost at a stand-still. A well-known bazaar dealer has purchased about 3,000 bales from 6s. to 10s. at the old rates and although his purchase now amounts to about 10,000 bales it has not produced any better feeling in the market. On the other hand as he does not find buyers freely he is obliged to sell some of his stuff at the purchased price or even a little lower. The general condition therefore is yet not encouraging and dealers, consumers and all concerned in the Yarn trade have been very cautious in operating their purchases even for small lots.

ENGLISH YARNS.

Manchester has been very steady owing to the latest decision of stopping the Lancashire Mills in alternative weeks and this has enabled the spinners to raise their limits and to cable distant deliveries. This however has not produced any better feeling in the local market as yet and prices have remained unchanged with little or no demand for Manchester yarns.

JAPANESE YARNS.

Turnover is much more the same and prices have remained slightly easy on account of reduced off-take. The prices from Japan for forward business are quoted somewhat higher on account of steady Sampin and firm exchange, but the buyers are absolutely unwilling to follow the rise to place any business. Stocks are getting reduced, but in the absence of confidence fresh business is negligible.

INDIAN YARNS.

Mills have been trying their best to meet the buyers in prices as well as in deliveries, but the continued drop in prices and the absolute loss of confidence amongst the buyers have been causing much anxiety with them. Buying is still much restricted and buyers have now been waiting for the monsoon. It is believed however that as cotton remains very steady if monsoon breaks favourably some improvement in demand may be experienced. All these are however conjectures and at the moment things remain very unsatisfactory. Reports from all up-country markets are discouraging and in case of very steady cotton it is certainly very difficult for the mills to reduce their limits any further though in our opinion even then we do not believe buying will be on a very large scale.

The general tone is still not very hopeful, but much more will depend upon the course of the monsoon in the next few weeks.

SUGAR MARKET REPORT.

Bombay, June 11.

The demand for ready sugars is somewhat smaller and the stocks are also getting reduced and prices are well maintained. Forward positions are in good enquiry and a good quantity of White Javas was done the June shipment at 15|8d. to 16d. and July|Sept. at 14|8d. to 15s. and Oct.|Dec. at 15s. to 15s. 3d. all Free Bombay Harbour terms. Most of the sales were made by an Indian Speculator and an Indian Importer. A fair quantity of the above sales were bought by European and Japanese Houses for transfer to Karachi.

Calcutta and Karachi reported steadier markets with good demand and good business doing for all forward positions. Java ruled steady throughout the week with small fluctuations and fair business doing chiefly for near at Hand shipment. London and America were quiet during the week. There is no news from Mauritius. The following are the Bazar rates and stocks:—

WEEKLY SUGAR MARKET REPORT

Bombay, June 11.

Java New Crop Prices ruled steady during the early part of the week under review and were steadier during the latter half of the week evidencing a rise of about 5d. in June Shipment Prices and of about 2d. in July-September and Oct-December Shipment prices. Continental Beet Sugar prices were unchanged during the first half of the week and ruled steadier during the latter half of the week. The highest and the lowest rates this week were Rs. 17/4 and Rs. 16/14 for Java Ready Sugar, Sh. 16 and Sh. 15/7 for June, Sh. 15 and Sh. 14/10 for July-Sept. and Sh. 15/3 and Sh. 15/1 for Oct-Dec. The only Complexion Aid you need.

Take Grandpa's advice! He knows what's wrong with your complexion. It lacks the radiant glow of youth and health—the evidence of that "Kruschen feeling" which he is always talking about.

A healthy complexion is a matter of pure blood and a healthy body. It is the impurities that have collected in your system that are responsible for a blotchy skin and eyes that lack their lustre.

Cleanse your blood with a "little daily dose" of Kruschen Salts. Just as much as will lie on a silver 4-anna piece. You can't taste it in your first morning cup of tea, but it will remove all waste matter from your system, clearing your skin and restoring the radiant health which is essential for a perfect complexion.

Remember it's the little daily dose that does it, and it costs only an anna a week.

ALLEGED ASSAULT ON TAXI DRIVER.

CHARGE AGAINST TWO EUROPEANS

On a complaint made by Rasaiya Dharmalinga, a taxi driver to the police, one Mr. Evans was charged with refusing to pay taxi fare and assault and Mr. Mackenzie and Mrs. Watson were charged with abetment in the commission of the above crime.

The facts of the case as stated are as follows: The complainant was waiting with his car at the Colaba police chowky stand on May 18th at 11-30 p.m. when a butler Ganoo asked him to take it to the R. A. S. C. Club. He was kept waiting there for about 1 3|4 hours. After that all the accused persons got in his taxi, and asked him to drive to the Watson's Hotel. On arrival at the hotel, the second and the third accused got down and went away. The first accused asked him what the fare was. He told him it was Rs. 4|4|- and that the charge for waiting for 1 3|4 hours was included in it.

At this the accused got enraged and began to abuse him calling him "damned rascal", etc. The complainant asked him to look at the meter. This excited the accused who hit him on the face.

All the accused were placed before Mr. S. S. Rangnekar the Chief Presidency Magistrate, at the Esplanade Police Court, on Friday.

The first accused's defence was that he never sent for the taxi at all. On getting out of the Club he saw the taxi coming and stopping there. He occupied it with the other accused, and failed to ask the driver to readjust the meter.

As there was no evidence against Mrs. Watson her statement was recorded by the Magistrate, and she was discharged.

Further hearing was then adjourned till Saturday.

DRIVER GETS BENEFIT OF DOUBT.

The case in which Jamnadas Damodar, a motor driver of Mr. Bhiwandiwalla, was charged with rash and negligent driving causing grievous hurt to Vithal Budha and Dahya Mula, two compositors of the Bombay Samachar Press came up for hearing before Mr. H. P. H. Dastur, the Third Presidency Magistrate on Friday.

Mr. Spencer conducted the prosecution while the accused was defended by Mr. Sorabji Kapadia, advocate.

The accused was asked by his master to take his car to one of his friends at Cumballa Hill at 6-30 a.m. on 12th April. He accordingly went to the garage which is in the Sonapur Cross Lane and brought out the car.

The complainants were sleeping on the road outside the stables. The left wheels of the car which left the garage ran over both the complainants and caused them serious injury. They were removed to the Hospital where it was found on medical examination that their ribs were broken. They were treated at the hospital.

The accused pleading not guilty admitted that the car had run over the accused but it was very dark all the time and the Municipal lights were put out the door of the garage was open and the complainants who were sleeping just near the garage could not be seen.

His Worship gave the accused the benefit of doubt and discharged.

It was mentioned in the Court that Mr. Bhiwandiwalla had compensated the complainants for the injury done to them.

W. I. A. A. ACTIVITIES.

The following are some of the important matters that were dealt with at a recent Committee Meeting of the W. I. A. A.

A letter was read from the Commissioner of Police pointing out that the existing rule had not been cancelled but that cyclists were permitted to use the dual purpose lamp. It was decided to write to the Commissioner of Police to ascertain where the dual purpose lamp had been tested.

Attention was drawn to the danger to the public to heavy lorries running with impunity without tail lights and also in many cases without even tail lamp brackets. As this matter has been legislated for in Calcutta, it was decided to write to the A. A. of Bengal requesting them to forward a copy of the regulation in question.

It was decided to write to Petrol Companies suggesting the erection of filling stations at suitable points on the Thana Road.

Several new members were enrolled including H. H. Prince Dhairyashilrao Gaekwar of Baroda.

IRAN PARTY'S RETURN.

We are informed by the Iran League that of the 23 members who went to Persia on a tour last April, a party of 12 are returning to Bombay to-day morning by the s.s. "Versova."

"VITA" TRAGEDY CASE.

FURTHER HEARING.

Further hearing in the case in which Mr. Kheraj Devji had filed against Mr. W. E. Grant, the captain of s. s. "Vita" of the British India Steam Navigation Company charging him with neglect of duty, was resumed before the Third Presidency Magistrate, at the Esplanade Police Court, on Friday afternoon.

Mr. Jehangir B. Patel, Barrister-at-Law, appeared for the complainant; while the accused was defended by Mr. Binning, instructed by Mr. Urban, Solicitor. Mr. Blunt, Solicitor, watched the proceedings on behalf of the B. I. S. N. Co.

Ibrahim Husain who saved 32 persons from drowning in the tragedy was again called.

Cross-examined by Mr. Binning witness said after he picked up 24 persons in his boat, only two were left in the water. They could not be taken by him as they had drifted away with the current. They were ultimately saved by two other boats. The witness identified the stern of s. s. "Vita" in the photograph and said that it received the greatest injury owing to the collision.

Sir Leslie Hudson, a partner of Messrs. Mackinnon Mackenzie and Company, the Agents of the British India Steam Navigation Company, was the next witness.

OFFICIAL REPORT.

Examined by Mr. Patel, Sir Leslie said that the first report he received of the Mandvi tragedy was from his Agent at Mandvi Bunder. When the "Vita" returned from Karachi, the captain of the ship was ill and he had gone to the hospital. On his resuming duty he was asked to explain matters; and he had made a statement before the Marine Superintendent. He had also reported the Company's Agents at Karachi who had sent the report to the Bombay Office.

Mr. Patel wanted these reports to go in as exhibits before the Court.

Mr. Blunt said that the reports were marked only for the Company's Solicitors. He added that the captain's report was only verbal.

Sir Leslie, however, did not object to the reports being given to the Court.

Mr. Blunt, thereupon, handed over the Company's Karachi Agent's report. It was dated May 5th from Karachi. On seeing that it was meant for the Company's Solicitors only the Magistrate returned the document to Mr. Blunt.

Mr. Patel: Did the accused not submit any official report on the affair?

Witness: The report made to the Karachi Agents is an official one.

Mr. Patel: How is the tragedy communicated to the Government Marine Department?

Witness: A copy of the report is forwarded.

COURT OF ENQUIRY.

Witness further submitted that a Court of inquiry consisting of four persons including himself was instituted departmentally by the Company. The accused was examined there orally and all the witnesses before the Court of inquiry were the Company's servants. A report of the inquiry was prepared and sent to Mr. J. G. Nensey, the Secretary of the Passengers and Traffic Relief Association, with a covering letter. Both the letter and the report were taken by the Court as exhibits.

Cross-Examined by Mr. Binning witness said that the Company had stated that they would issue a communique on the affair after the captain resumed. To say that it was a ruse to allow the captain to go away was, according to the witness, absolutely untrue.

Mr. Patel asked Mr. Binning if he wanted Mr. Nensey, the Secretary of the Passengers and Traffic Relief Association, in the witness-box. As Mr. Binning was not particular, Mr. Nensey was not called.

Mr. Patel, then, prayed for an adjournment; and requested the Magistrate to call for Mr. Jamasji who was a passenger per s. s. "Vita", standing on the stern with the first witness in the case at the time of the tragedy as a witness, as he was the man who had first run up to the captain. Mr. Patel had tried to call him; but the Magistrate's orders through Dr. Harold Mann of Poona, his superior, were found to be necessary. Mr. Patel prayed for an adjournment till that witness could turn up.

Mr. Binning strongly opposed any more adjournment on the ground that the health of the accused required him to go home soon.

The hearing was then postponed till Saturday noon.

A GIRL BURNT TO DEATH.

An inquest touching the death of Khairunnisa, a seven years old daughter of Shaikh Ahmed Shaikh Ali, a wood merchant, residing at Ripon Road, was held at the Coroner's Court.

The deceased girl had gone out to play with Abdul Razak, a nine years old boy. Abdul was playing with a cup full of petrol. To heat the petrol Abdul lighted a match stick and put it below the cup. Suddenly the petrol was on fire, and the flames spread to the girl whose clothes caught fire Before any help arrived she was severely burnt all over the body. The neighbours arrived very soon and removed the girl to the J. J. Hospital for treatment and she died there on Thursday.

The jury recorded a verdict of accidental death due to burns.

ACCIDENTAL DEATH

On Firday morning the body of Appa Bandu, a 20 years old Hindu, was found floating in the tank of the Mahomedbhai mill.

It appears that Appa was bathing on the edge of the tank on Thursday when he suddenly lost his balance and fell in the tank. His clothes were seen lying near the tank, and the body was found floating on Friday. The police who were soon informed removed the body to the Morgue.

At an inquest held on Friday noon, the jury recorded a verdict of accidental death due to drowning.

CALCUTTA SHARE MARKET

CALCUTTA, June 11.

In the share market to-day jutes were a quieter market consequent upon a number of settlements effected in Howrah and Clive. Prices however were irregular as even at full rates some of the stock sought after failed to produce any sellers. Later there was more activity and an all round improvement resulted.

Coals: Union which were scarce at the last listed quotation found some support at an increase of about two points.

Teas: There has been some profit taking in evidence which has meanwhile caused values to slacken in a few instances. Hoolungerie on the other hand registered a sharp advance.

Miscellaneous were without any fresh features, the single exception being standard wagon preference which improved on reports of a coming satisfactory dividend.

Government securities remained quiet.

Following were to-day's closing quotations:—3 1|2 per cent. Government Paper Rs. 77|4; 5 1|2 per cent War Bonds 1926 Rs. 106|4.

Nothing Less Than A Miracle?

I had been suffering from Paralysis for more than 10 years. I had placed myself under the treatment of many famous doctors, but I did not get well. I went to England and Germany where I consulted good many great and renowned doctors for my treatment. They tried heart and soul to cure me, but all their efforts went in vain. Being disappointed I came back to India and was passing my days giving up all hopes of my life.

One day when I was thinking of my poor self, a friend of mine told me to take advice from the well-known occultist, Mr. Mir. Immediately I went to see him. He gave me Seven "Tavizes" to burn and gave me assurance that I would be cured very soon. Now, I am very glad to say, I am doing well. I may recommend everybody to be placed under this treatment for any sort of disease.

A FINE LEAD.

We congratulate Mr. Muzharul Haque and the other Hindu and Muslim leaders of Behar on the fine lead they have given to the whole country by the very practical step they have successfully taken of coming together in conference and formulating a series of definite suggestions the working out of which will be helpful in nipping in the bud all Hindu-Muslim misunderstandings. The emergence into public life again of Mr. Muzharul Haque is particularly welcome, because under a leader like him, in whose singlemindedness of purpose and broad national outlook both the communities have implicit trust, the Hindu-Muslim tension, which was just raising its ugly head in Behar, is sure to be destroyed, with the assured co-operation of influential members of both the communities. Behar was the one province in India noted for the splendid amity of relations between Hindus and Muslims within its borders, and its leaders have taken recourse to the only method possible, the method of mutual deliberation and co-operation to prevent the continuance of the recent attempts by mischief-makers to tarnish the fair name of their province. They have decided that whenever any trouble occurred in regard to which the Hindus had a grievance they should forthwith inform the local Muslim Congress workers and *vice-versa*. What is needed most to-day is that Hindu leaders should promptly disavow the excesses committed by fanatics in their community, that Muslim leaders should be equally prompt in this matter and that there should be a determined attempt made to come together to prevent a quarrel, instead of allowing separatist tendencies to invade and ruin all chances of communal unity. We hope the joint manifesto issued by the Hindu and Muslim leaders of Behar will be taken as a model for action in this very urgent and crucial problem of cementing Hindu-Muslim unity whatever the obstacles in the way, however great the provocation to think in separate grooves, however hard for some of our leaders it may be to resist the temptation to resort to retaliation instead of pursuing the noble and far-sighted policy of mutual forgiveness.

A GRAVE INDISCRETION.

That the King can do no wrong is a commonplace of British constitutional theory the inevitable corollary of which is that the King is expected studiously to eschew political controversy. It is only by this aloofness from party politics that the integrity of the British Constitution is preserved. The Prince of Wales, as heir to the throne, is expected to observe the same rule. The departure that he has made from a wholesome practice by his speech at the Indian Civil Service Dinner can only be described as an indiscretion whose potentiality for mischief is incalculable. Apart from the fact that the function at which the speech was delivered was presided over by Sir Michael O'Dwyer, the contents of the speech, as summarised by Reuter, leave no room for doubt that His Royal Highness has adopted a partisan attitude to a degree that cannot but cause resentment and pain in India. His unstinted eulogy of the I. C. S., in which the duty the latter owed to the people over whom he expects to rule in future was not even mentioned, gives one the unpleasant impression that his services have been utilised as an advertising agent for the close Corporation which maintains the hold of the Empire over India. For the main purpose of the speech seemed to be to bespeak support to the Lee recommendations which, His Royal Highness could not have been unaware, have been denounced by every section of public opinion in this country as a day-light loot of its exchequer. That His Royal Highness' position should have been exploited by the I. C. S. to bolster up its prestige betrays the desperate straits to which the bureaucracy has been reduced in its efforts to prevent the people of India from winning their freedom. But those who inspired this indiscretion of His Royal Highness have done no service to Britain. For if there is one thing, which reconciles the people of India to the British connection it is the feeling of attachment and loyalty to the throne and person of His Majesty. This feeling is induced by the confidence that whatever else may happen the sympathy of the Crown will never be denied to India. That confidence has been shaken by the unfortunate speech of His Royal Highness. We trust immediate steps will be taken to repair the grave blunder.

MAHATMA AND HIS CRITICS.

One would have thought that after the full and detailed explanation given recently by Mahatma Gandhi in "Young India", regarding his visit to Mahableshwar, all criticism would be silenced. But there are some people who seem to be out for destroying his influence and they are still engaged in the amiable task of pouring ridicule on his devoted head for his alleged recantation of the principles of non-co-operation. The spectacle of Mr. Narso Chintaman Kelkar teaching Mahatma Gandhi the principles of non-co-operation is one for gods to see. As Gandhiji told his friendly interviewers in Poona, non-co-operation is greater than Gandhi: "Non-Co-operators must instinctively know that I am not likely to do anything contrary to our Code. And if I do,—for I admit, I am liable to err,—they must disown me and remain firm in their convictions. They may have derived non-co-operation from me, but if they have assimilated it their conviction must not depend upon mine. It must be independent of me and my convictions. If I turn traitor, or, to put it mildly, if I alter my opinion, they must be ready to denounce me and still abide by their convictions". But Mr. Kelkar has a peculiar love for the Mahatma. He has in one respect rightly guessed his mission in life. He feels that the man is greater than the movement and that so long as Mahatmaji is enshrined in the heart of India, his discredited Responsive Co-operation cannot strike any root there.

Ever since Mr. Kelkar joined the Non-Co-operation movement or rather was compelled by the logic of events to join it he has chafed under its restraints. Since Bardoli, which gave him his opportunity, he has cast all restraint to the winds and week by week his paper has been carrying on a persistent campaign of vilification of Gandhiji. The attempt of the "Kesari" has been from the beginning to attack Gandhiji, the idea evidently being that if somehow Gandhiji suffers in public estimation, his movement will disappear and the field will be left clear to the Kelkarites. To the "Kesari" Gandhiji's visit to Mahableshwar has been a god-send. Insihuations were first made that he went there self-invited as a suppliant. In the opinion of the Poona journal, which trades on the reputation and traditions of the late Lokamanya but which has thrown the principles of the latter to the winds, Gandhiji is no better than a Responsive Co-operator. To all these objections, as if he had anticipated them, Gandhiji has given a complete reply: "Non-violent non-co-operation means renunciation of the benefits of a system with which we non-co-operate. We, therefore, renounce the benefits of schools, courts titles, legislatures and offices set up under the system. The most extensive and permanent part of our non-co-operation consists in the renunciation of foreign cloth which is the foundation for the vicious system that is crushing us to dust. . . . If then I to go to any official for the purpose of seeking the benefit above named I co-operate. Whereas if I go to the meanest official for the purpose of converting him, say to khaddar, or weaning him from his service or persuading him to withdraw his children from Government schools, I fulfil my duty as a non-co-operator". But there are some people who seem to be incapable of understanding the meaning of non-co-operation.

As for self-invitation there again the Mahatma's reply is complete: "I went to the Acting Governor at his instance. He wrote to me not as Governor nor for any purpose connected with his office as Governor. He invited me to go to Mahableshwar to discuss with him agricultural matters. . . . I told him that I could not be identified with the Royal Commission in any way, that I was still confirmed in my views on non-co-operation and generally had no faith in Commissions". But it seems nothing that Gandhiji may say convinces people bent upon running him down. The "Kesari" has made a mountain of a mole-hill and if it imagines that Responsive Co-operation will fare better if Gandhiji is abused those for whom it speaks will find themselves speedily disillusioned.

CO-OPERATIVE INSTITUTE AND OFFICIALS.

It has all along been claimed by co-operative workers in Bombay that the movement in this Presidency is less officialized than in other parts of India and that the existence of a body like the Bombay Central Co-operative Institute enables non-officials to influence policy and to have the views of co-operative organizations to be effectively represented. When two years ago the Institute decided to revise its constitution it was hoped that, as a result, it would become a more representative body and that its policy and working would be controlled more directly than is the case now by the elected representatives of co-operative institutions all over the Presidency. We are not sure, however, if the effect of the changes now proposed in the constitution will not be the reverse of what was expected, for while under the original constitution officials could come in as individuals interested in the spread of co-operation, the constitution now framed recognizes specifically the Co-operative Department as an "interest" which should secure special representation on the executive and governing bodies as well as the deliberative assembly of the Institute. It has been urged that such representation must be accorded to the Co-operative Department in view of the fact that the Institute depends for its funds, to a very large extent, on grants from Government. These grants, however, do not represent a gift by any Department of Government, but are voted by the Legislative Council which may in its discretion attach to them, if necessary, stipulations regarding the mode of disbursement of these funds and the submission of accounts and reports of work. The grant of such assistance does not entitle the Co-operative Department to put forward any claim, such as it has made, for the introduction of an official element in what is supposed to be the apex non-official institution in the movement. What is still more regrettable, however, is that the Registrar is not satisfied with the representation accorded to him in the draft bye-laws which were adopted at a special general meeting of the Institute but that he returned them for reconsideration with the suggestion that the representation already allowed should be increased. Very naturally, at the second meeting convened to consider the Registrar's suggestion, the members refused to agree to the proposed increase; and yet the Registrar seems inclined not to treat that verdict as final. This incident affords a most glaring instance of the absolutely arbitrary nature of the authority vested in the Registrar under the law which permits him, at his discretion, to refuse the registration of amendments in bye-laws, and for the good name of the co-operative movement, if not out of a sense of self-respect, we hope the members of the Institute will stoutly refuse to yield to the dictation of the Registrar.

Notes of the Day.

Vernaculars in Colleges.

At to-day's meeting of the Senate the old question of vernaculars in the colleges is to come up again for consideration. The University has recently begun to appreciate the educational claims of vernaculars and has recognized them as alternatives of classical languages at the M. A. and the B. A. (pass) examinations at one end and the Matriculation examination at the other. But, curiously enough, as a result of the policy of piece-meal reform, the vernaculars are entirely left out in the intermediate stage at the college. This lack of continuity, a serious handicap to students, was noticed by the recent University Reform Committee who rightly observed (para 128 of the Report) that "if any subject in language is offered for study at the earlier stages, it should be available for study at the later stages also" and unanimously recommended that "the vernaculars also be options throughout the Arts courses at the University." We understand that the Syndicate, to which the question was referred, has also recommended that at First Year and the Intermediate Arts examinations the vernaculars should be alternatives for classical languages. This is the best solution of the question and the logical conclusion of the recent policy of the University. We trust the Senate will approve of the considered opinion of the University Reform Committee and the Syndicate.

Intolerance.

The problem of birth control has given rise to an interminable and acrimonious controversy in Europe and America. The "Birth Control Review" of America comments on the intolerant attitude adopted by the authorities of two Christian Missionary Colleges in India. After referring to the support reported to have been given by Rabindranath Tagore to the cause of birth control, the paper, states: "While the head of Visva-Bharati, the great international university, has taken this humane stand two small Christian Colleges in India have declared for reaction. Wilson College in Bombay has dismissed from his professorship of mathematics Professor R. D. Karve, whose splendid reply to Mahatma Gandhi we quoted in the September Review. At the same time Hislop College in Nagpur City has relieved Professor N. S. Phadke, one of the pioneers of Birth Control in India, from his duties as professor of philosophy." Western critics have missed no opportunity of painting Indians as intolerant and fanatical. What have they to say about the attitude of the authorities of the Colleges mentioned by the "Birth Control Review?"

An Awakened People.

The proceedings of the second anniversary celebrations of the Gurkha League at Dehra Dun are a welcome reminder that the Gurkhas as a people have been alive to the necessity of initiating reform in their traditional customs. A free and independent people, the Gurkhas have every opportunity open to them of bettering themselves educationally and economically under their enlightened ruler whose latest achievement in the direction of reform, the emancipation of the slaves in his Kingdom, has been universally appreciated. The Gurkha has a record of distinguished military achievement as a soldier in the service of England. With the enjoyment of greater educational opportunities through the efforts of a body like the Gurkha League, we hope he will resent being used merely as a mercenary as, for example, at Chandpur some years ago, when presumably through sheer ignorance a Gurkha Battalion was guilty of methods which were as discreditable as they were cruel.

As Others See Us.

Foreign observers of the Indian political situation sometimes happen to analyse it with a closer and more accurate insight into all its shiftings than some of our own leaders. The Editor of "Unity," an American weekly, which is reprinting the autobiography of Mahatma Gandhi, remarks in an editorial note regarding the Swarajists position in Indian politics, how they became "impressed by the western method of political reform" and under the able leadership of Mr. C. R. Das "advised that Indians should do what the Irish had done, for example, conform to the political usages of the country, get into the Government, and there make all the trouble possible." The American journal evidently means "get into the Councils," when it writes "Government." It adds that as the walk-out tactics indicate, the political method has failed and "Gandhi's programme of non-resistant Non-Co-operation is once again to the fore." According to "Unity," "The Mahatma's policy has been vindicated and his leadership re-established."

A Mother's Wail.

"Forward," reports the case of an Ordinance prisoner, Shyamananda Sen, who was refused permission even to reply to the communication of his sorrowing and widowed mother who had informed him of the news of his sister's death. The mother sent a telegram to the jail authorities asking for news of her son and praying that he might be allowed to live with her for a few weeks to console her in her bereavement. She was refused even the courtesy of acknowledgement of her telegram. Later, a prepaid wire brought her the information that Shyamanand was in good health. But the old, unfortunate woman was kept in the dark as to why her son had not been allowed to write himself.

ART AND THEORY.

(BY SPECTATOR.)

Facts and theories in Art may often belong to two entirely different departments. The former constitute the stony domain of the professional artist—the latter those transcendental regions for which the art controversialist sits "shaping wing to fly." The latter country is not only far more ethereal than the difficult world in which the artist "lives and moves and has his being", but is delightfully free from awkward questions of supply and demand. The artist himself, however, is not immune from the troublesome problems of ways and means which are held by some to be the exclusive province of the mean economist, and the length, breadth, and height of the creations of his brush must often be determined in ratio to his daily bread; in short, no man paints his best on an empty stomach! If the great Wilson seems to be an exception, because he is said to have painted a landscape for the sake of a meal, consisting of a pot of beer, and a plate of bread and cheese,—he at any rate had before his eyes the tangible and immediate rewards of art! It is no use remembering the landscape unless one remembers the beer and the bread and cheese also!

The Danger of Over-Theorising.

There seems to be a distinct danger of over-theorising in the present controversy about Indian Art. For instance in the reports of some recent art lectures in Bombay the lecturer is stated to have contrasted Zeuxis and his selection of a model for his picture of Helen at Crotona with the supposed methods of the Masters of the Ajanta Caves, who "would have demanded time for meditation and concentration in order that they might visualise an Ideal Helen in their inner consciousness, aiming rather at discovery than creation." This may well be, but the Ajanta Masters—like the lecturer himself—must first have learned to draw! The intensely realistic qualities of much of the best work at Ajanta can only have been achieved by a study of realities. Even the Chinese with their very abstract artistic themes followed certain well-defined strict canons of art. Here are the golden rules which the Chinese art student had to follow (as quoted by a scholarly authority):—

1. Spiritual element engendering life movement.
2. Correct skeleton brush work.
3. Knowledge of true form.
4. Right colour.
5. Right composition and grouping.
6. Adherence to classical models.

The lecturer is also said to have quoted a remark by Burne-Jones about an artist who painted out of his head: "That is the place I think pictures ought to come" (*sic*). Yet no artist has referred more closely to Nature than did Burne-Jones himself! In her life of the painter his wife has told us how meticulously he built up his pictures from the objects represented, even getting every detail *made* before he painted it!

What do the Transcendentalists say to this? The Ajanta artists—like all other great artists—went through a severe technical training. It was rightly observed by an able professional artist who wrote in 1914 that "everything in these pictures (Ajanta) from the composition as a whole to the smallest pearl or flower testifies to depth of insight coupled with the greatest technical skill."

Progress in Bombay.

It is true that many of the other theories advanced by the lecturer in question have been advocated by the "Bombay Chronicle" for the last six years at least, and so it will not be at all surprising if the lecturer's general charges that the work done in Bombay is a base imitation of the West should prove to be decidedly out-of-date! Facts cannot always be as easily demonstrated in art controversy as in horse-racing, but presumably the productions of the students of the Art schools are to be seen, to evidence the stride forward which has been made since (long ago) the "Chronicle", boldly and almost single-handed championed the cause of "Indianisation" in Indian art. Of course it is difficult enough for the artist to make a living anywhere; and in India to-day it is trebly difficult because his patron sometimes asks for an "Indian" style of work, sometimes for a "European" style, and sometimes for a mixture of both. Think of the difficulty which faces the Indian artist who is asked to model a portrait bust, or paint a life-size portrait of a person in up-to-date military uniform, or in European dress! To tell an Indian artist faced with this conundrum to "aim rather at discovery than creation" would not help very much in a task on which his bread and butter depended. Yet this is just one of innumerable problems which face the Bombay artists to-day. It will be better for everyone when the ardent theorists realise these hard facts, and that the question of the revival of Indian Art is primarily to-day a question of patronage. If Bombay is truly determined to see the restoration of the great art of a great country, it will insist upon employment being found for its very able artists, and demand opportunities for talents which only await recognition.

JOINT MANIFESTO.

The following manifesto, signed by Maula...na Maulvi Mazharali Haque, Babu Rajendra Prasad, Dr. Syed Mahmud, Mr. Jagat Narayan Lal, Mr. Ramdayal Sinha, Mr. Murli Manohar Prasad, editor "Searchlight," Mr. S. M. Israel, Maulana Abdul Bari and others, is being issued:—

"We desire to take the public in Behar into confidence in regard to the present situation in the province in particular and the country in general with regard to the conclusion to which we have arrived as a result of heart to heart talk for three days in the conference of select friends convened by Maulvi Mahzarul Haque at Chapra on the 8th, 9th and 10th instant. We, Mussalman members agree that demolition and desecration of Hindu temples and objects of worship are actions contrary to the injunctions of the Quoran and the traditions of the Prophet and, therefore, we in obedience to those injunctions, unhesitatingly condemn all such actions, whether individual or organised and call upon our co-religionists immediately to wash their hands off such business and repent for the sin. We, the Hindu members of the Conference, are agreed that any interference with Muslim religion or religious institution is equally hateful to us and we call upon our community to abstain from such action and we condemn such interference wherever it has occurred. We agree that all causes of differences shall be settled by mutual agreement on the principles of reasonable accommodation of each other's needs and we strongly deprecate the use or show or force of any kind in the enforcement of whatever any community may consider it as its rights. In the common interest of the country and the province, we recognise that separatist tendencies in any walk of life are prejudicial to the best interests of all sections of the people, whether in majority or minority, and agree to continue in future as we have done as a result of Mahatma Gandhi's efforts. We deprecate the use of abusive language against all religions and personalities held sacred by those religions."—Free Press.

INDIAN PROTESTS.

FRESH INTEREST AROUSED.

MATTER TO BE CONSIDERED NEXT WEEK.

SPECIAL TO "THE CHRONICLE."

GENEVA, June 10.

Fresh interest in the Indian protests regarding the employers' delegate has been aroused in the Ninth Labour Conference circles, owing to telegrams from Indian National Chambers contradicting the statement of the Government of India delegate before the Credentials Committee of the Eighth Conference that in India, Government opinion, and the European Chambers constitute a proper representation of Indian interests.

It is expected that Credentials Committee of the Ninth Conference will consider the Indian protests next week.

Geneva.—The League Council, to-day, adopted a report of the Committee on the financial reconstruction of Hungary which recommends the cessation of functions of Mr. Jeremiah Smith from 1st July. Mr. Dubois, Chairman of the Committee, pointed out that Mr. Smith's departure from Hungary did not mean an end of the League control in respect of the balance of the reconstruction loan amounting to 83 million gold crowns and the revenues assigned to the service loan, but the abolition of control over the Budget.

M. Bethlen expressed gratitude of the Hungarian people for the effort which had brought a successful financial reconstruction in the short space of two and half years.—Reuter.

Geneva.—The League Council has adjourned consideration of the report of the Preparatory Disarmament Conference until September.—Reuter.

In the Commons, replying to questions, Mr. Baldwin regretted that he was unable to dissent from the conclusion of the Coal Commission Report that it will need years to bring into effect all measures of reorganisation suggested, while, in the meantime the present hard economic conditions had to be faced. The impending disaster could only be averted by an immediate reduction of the working costs by means of lower wages or longer hours. Mr. Baldwin added he had heard of no alternative proposals for meeting the immediate situation except that the taxpayer should resume the burden of maintaining the coal industry.—Reuter.

DETAILS OF CAPE TOWN TRAIN DISASTER.

LONDON, June 10.

Cape Town.—The train involved in the railway disaster was the express from Cape Town to Claremont. It was conveying citizens to their suburban homes at the close of the day's work when the coupling train broke on bridge at the entrance to Salt River and the rear part which was derailed jolted its way into the station, presenting a terrifying spectacle. PRINCE OF WALES' INDISCRETION.

SUPPORT TO LEE LOOT.

EULOGY OF I C S.

LONDON, June 11.

For the first time in its history, the Royal Family was present at the Indian Civil Service Dinner at Hotel Cecil in the person of the Prince of Wales. Sir Michael O'Dwyer, presiding said the I.C.S. stood for the lofty but humble ideal of the Prince of Wales's motto: "I serve." He welcomed the growing inuux of Indians with the necessary qualifications in the Services and higher administration, but urged that a strong British element was essential for the maintenance of standards of integrity, impartiality and efficiency.

His Royal Highness, proposing the toast of the Indian Civil Service officers, mentioned specially district officers in up-country places where, he said, the I.C.S. officer lived his fullest and truest life. The Prince of Wales referred to the financial difficulties of the Civil Service officers, and hoped that the acceptance of recommendations of the Lee Commission had done something to lessen their hardships. It would certainly be unfair, he declared, if private worries were to be added to the very heavy burden of responsibilities.

The Prince, continuing, said India still provided a field for British character and enterprise. If ever a complete story was written of British work throughout the world, there would be no chapter we could be prouder of than that on the British services in India.—Reuter.

DIFICULTIES OF SINDHI STUDENTS.

QUESTION OF A SECOND LANGUAGE.

HYDERABAD, (SIND.) June 10.

The Secretary of the Hyderabad Students' Association wires as follows:—

According to the new regulations most of the Sindhi students took up Sindhi as an alternative to a classical language in the Matriculation examination held this year. The University authorities have not so far permitted students to take a vernacular as an alternative to a classical language in the First and Inter Arts examinations, although in the B. A. examinations, Sindhi has been included as a voluntary subject. Sindhi students, therefore, view with great apprehension the prospect of having to start anew Persian or Sanskrit for the First and Inter Arts examinations if the vernacular is not allowed as an alternative to a classical language.

Hyderabad students, met yesterday under the presidentship of Mr. Lilaram Premchand, Head Master of the Government High School and passed resolutions urging on the Senate the inclusion of Sindhi and also of Hindi and Urdu as alternatives to other languages.

SOURCES OF MISCHIEF.

EX-MAHARAJA ON COMMUNAL 'VARSITIES.

MUSSOORIE, June 11.

A Free Press of India correspondent interviewed His Higness the ex-Maharaja of Nabha on the question of the proposed Sikh University and the recent speech of Sir Malcolm Hailey regarding it. His Highness said, "I am a staunch Sikh and my loyalty to Sikh Gurus is unswerving and undivided. But my confirmed opinion is that denominational universities and institutions under Government patronage retard the growth of sturdy nationalism."

The Maharaja Saheb admitted that many years ago he had expressed different views on communal universities in the Imperial Council. "But", he said, "Now I strongly maintain that there should be no government aided communal institutions. Because instead of doing good they are sources of great and real mischief to the country." He was glad Sir Malcolm Hailey had thrown a cold douche on the Sikh College Council's request.

"The Gurukul at Kangri and Rabindranath Tagore's Shantiniketan", observed the ex-Maharaja," are rendering great public service. But they are independent and unaided institutions". His advice to Sikh brothers was to be self reliant and have a national outlook.—Free Press.

TRUE SANGATHAN.

MRS. NAIDU'S PLAIN TALK

CAWNPORE, June 11.

Mr. Sarojini Naidu, who arrived here yesterday, addressed a huge meeting of more than 5,000 persons at the Queen's Park on the present political situation and the Hindu-Muslim problem. She said that the elections were much at the bottom of the present communal tension.

The cry of "religion in danger" was, she said, false. She was in favour of Hindu Sangathan, but her Sangathan meant uplift of the depressed classes, bettering the condition of Hindu widows and orphans and removing the evils of caste system. The real interests of one community did not differ from those of the other and, therefore, she thought, persons raising political issues on communal lines, were dishonest.

PLEA FOR REASON.

She appealed to the Muslims to be patriotic and good Indians. The attitude of the Muslims regarding the question of music before mosque was not reasonable. They should not try to shut the air pervading God within the four walls of mosque.

After the meeting was over, some persons, who took objection to some of her remarks about Hindu Sangathan, put some questions to her. In reply she stated that the division of political interests on communal lines, whether done by Muslim or Hindu communists, was harmful and condemnable. She as a Hindu had a right to condemn the Hindus more strongly.

PROPERTY OF GERMAN EX-RULERS.

COMPROMISE BILL REFERRED TO JUDICIAL COMMITTEE.

LONDON, June 10.

Berlin.—In the Reichstag submitting a compromise Bill on the question of the property of the ex-rulers, Chancellor Maex declared that the demand for confiscation without compensation was against the principles of the Legal State and against the constitution, which conferred on all citizens equal rights. He added that if a plebiscite resulted in the negative, Government would do its utmost to reach a settlement in the spirit of the Compromise Bill, and would not hesitate to take consequences if it was impossible for the Reichstag to reach an agreement.

The Deputy of the Centre Party, on behalf of Government parties, approved of the Bill.

Socialist Muellen attacked President Hindenburg regarding his recent letter opposing confiscation without compensation, and said Von. Hindenburg was guilty of unconstitutional partizanship.

Dr. Marx did not admit that Von. Hindenburg had violated his constitutional position, but his attitude was not shared by the Government parties including the Centre Party of which Dr. Marx was the Chairman. The Compromise Bill was finally referred to the Judicial Committee.—Reuter.

CALCUTTA POLICE.

ALLEGATIONS OF PARTISAN SHIP UNTRUE.

CALCUTTA, June 10.

In his report to the Bengal Government on the Calcutta riots Mr. J. E. Armstrong, Commissioner of Police, after narrating the events of the first fortnight of April says:—"It must be admitted that in the nature of things the great preponderance of Hindus in force, whether officers or constables does afford some ground for the apprehensions of the Mahomedans that in a communal crisis of this nature Police measures may be conducted in a partisan spirit. It would, however, be grossly untrue to assert that this spirit has influenced to any appreciable extent the general conduct of police in the present riots. The General body of criticism has been so vague and general in character that it has been impossible to unlertake any investigation into the great majority of the allegations levelled against the police, either individually or collectively.

BASELESS CHARGES.

The following may be quoted in illustration of the baseless charges which have been so freely levelled against the force even by persons of public prominence and high position. On the 4th April Mr. H. S. Suhrawardy, Deputy Mayor of Calcutta, personally complained to the Commissioner that the police and the military had that day looted a shop. The Assistant Commissioner of the Detective Department and others were immediately deputed to accompany Mr. Suhrawardy to the scene of the alleged occurrence. A full enquiry was held without delay and it was found that the charge was entirely baseless.—A. P.

ACCUSED ACQUITTED.

MOTOR LORRY DRIVERS OF RAJESHWARI PROCESSION.

CALCUTTA, June 10.

Mr. A. Z. Khan, Additional Chief Presidency Magistrate, Jorabagan, concluded the hearing of the case in which three lorry drivers were prosecuted on charge of obstructing Harrison Road by keeping their lorries with images of goddess Raj Rajeshwari. In acquitting the accused the Magistrate passed the following order:—"Although there was obstruction of road I hardly think that the lorry drivers can be made responsible. They were on the horns of a dilemma. On the one side there were police orders to remove the lorries and on the other side nobody in charge of images was present to tell them what they should do. If they did anything one could not tell what consequences may or may not have been. The position was very delicate and one can appreciate the helplessness of the lorry drivers. They do not deserve to be punished in this case. The accused are acquitted".—A. P.

SECOND TARIFF BOARD.

ENQUIRY INTO COTTON INDUSTRY.

GOVT. RESOLUTION.

SIMLA, June 11.

The Government of India have issued the following resolution appointing a second Tariff Board to enquire into the cotton textile industry:—

The Government of India have received an application from the Bombay Millowners Association requesting that the Tariff Board or some other committee similarly constituted and with similar powers may be directed to enquire into the causes of the present depression in the Bombay cotton textile industry and to suggest the measure which might be taken to restore prosperity.

The Government of India agree that this enquiry should be made and consider that it should be held as soon as possible. The Tariff Board is, however, at present fully occupied with the statutory enquiry into the steel industry required by the Steel Industry (Protection) Act 1924. The Government of India have, therefore, decided to appoint a second Tariff Board for the purpose of the enquiry into the cotton textile industry with the following terms of reference.

TERMS OF REFERENCE.

(1) To investigate the condition of the cotton textile industry in India with special reference to the industry in Bombay and Ahmedabad.

(2) To examine the causes of depression in the industry and to report whether they are of a temporary or permanent character.

(3) In particular, to consider whether, and if so to what extent, the depression is due to the competition of other countries in home and export trade.

(4) To report whether having regard to (1) to the fact that the industry has long been firmly established in India and (2) to the interests of the consumer and to all other interests affected (a) the industry is in need of protection and (b) if so in what form and for what period protection should be given and (c) to make any other recommendations that are germane to the subject.

PERSONNEL

The following gentlemen have agreed to serve on the Board:—President: F. Noyce enquire C.S.I., C.B.E.,, I.C.S, Members: Rai Bahadur Pandit Hari Kishan Kaul C.S.I., C.I.E. N.S, Subba Rao enquire M. A., Bar-at-Law (Principal and Professor of Economics, Maharajah's College, Mysore).

The Headquarters of the Board will be at Bombay but it will also visit such other place as it thinks necessary for the purpose of enquiry. It will assemble at once and report to Government of India at the earliest possible date.

Commercial bodies, firms or persons interested in the enquiry should address their representations direct to the President, Tariff Board (Cotton Textile Industry Enquiry).

The Government of India trust that the local governments and administrations will afford the Board all assistance which it may require and will comply with any request for information which may be addressed to them by it.

JAPANESE COMPETITION.

MILL-OWNERS' CORRESPONDENCE WITH GOVT.

SIMLA, June 11.

The Government of India have published the correspondence they had with the Millowners' Association, Bombay, leading to the enquiry into the cotton mill industry by a second Tariff Board. The Association in their representation of 9th March explained their view regarding the competition which India is meeting from Japan. Japan and India were both represented at the Washington Conference and all representatives of both the countries agreed to the two conventions regarding hours of work and non-employment of women. But while the Government of India took immediate action and the Factory Amendment Act of 1922 fulfilled India's obligations in respect of two conventions, Japan on the other hand has failed so far to carry out these two conventions and has apparently no intention of doing so till 31st August, 1931, at the earliest with the result that her textile mills have an unfair advantage when comtion which Japanese mills enjoy owing to the fact that women are employed on night work and working hours are longer than in Indian mills.

ASSOCIATION'S SUGGESTIONS.

Since it is not possible to take effective steps against Japan through the International Labour Office owing to the Conventions not being of a mandatory nature, the Secretary of the Association says: "My Committee consider, in the interests of Indian labour and Indian textile industry, that additional duties should be imposed upon the imports of piece-goods and yarn from Japan into India until Japan prohibits employment of women at night and reduces the length of working week per operative to confirm with the Hours Conventin. The extra import duty which should be imposed on Japanese piece-goods and yarn, my Committee maintain, should be equivalent to the approximate saving in cost of production which Japanese mills enjoy owin to not having ratified these conventions.

"My Committee suggest that for the specific purpose outlined above an 'ad hoc' Committee including a proportion of textile experts should be immediately appointed and asked to report without delay."

GOVERNMENT'S REPLY.

The Government of India, replying on 26th March, stated:—

"The proposals you have made contemplate imposition of differential duties on yarn and piece-goods imported from Japan. If these were accepted they would involve a denunciation by the Government of India of the Trade Convention with Japan of 1905, for under that Convention Japanese goods enjoy on importation into India the lowest customs duties applicable to similar products of any other foreign origin and the same treatment is secured to Indian goods on importation into Japan. Your Committee will agree that it would be a most serious step to denounce the Convention."

The reply proceeds to say: "The Government of India do not propose to comment at length on the implications of your argument that because the Government of Japan has not ratified the conventions the Government of India would be justified in imposing additional duties on yarn and piece-goods imported from Japan. But they must point out that there is no obligation on any Government to ratify draft Convention adopted by the Conference of the International Labour Organisation, even though its representatives at the Conference may have agreed to the draft Convention. The whole basis of these conferences is that merely draft conventions are adopted under Article 405 of the Peace Treaty; each State which is a member of the International Labour Organisation undertakes to bring the draft Convention within one year before competent authorities for the enactment of legislation or other action. If no legislation or other action to make a recommendation effective follows, or if a draft Convention fails to obtain the consent of the competent authorities concerned, no further obligation rests on the State in question.

CASE FOR ENQUIRY.

"For these reasons the Government of India regret they are unable to agree to your Committee's proposal that the case for safeguarding duties (as opposed to general protection) should be accepted as established and that a Committee should forthwith be appointed merely for the purpose of determining the amount of those duties. At the same time the present difficulties of the mill industry are a matter of much concern to the Government of India and they are anxious to do what they can to assist the mill-owners to find the right solution of those difficulties. They are prepared to admit that there is a 'prima facie' case for enquiry. But they hold that the enquiry should be a comprehensive enquiry and that the whole field should be opened to the body entrusted with it; for protection, whenever it be called protection or merely safeguarding must enhance the price of cotton goods for the Indian consumer and the Government of India are unable to agree to any course that would have this result unless and until the necessity of that course is established by a comprehensive impartial enquiry."—A. COMMUNAL DIFFERENCES.

REFORMS THE ONLY CAUSE.

Sir Chimanlal Setalvad gave a tea party to Mr. S. N. Mullick on Friday evening, in the rooms of the Indian National Party, on the eve of his departure to England to take up his office as a member of the India Council.

Sir Chimanlal said Mr. Mullick had been a prominent figure in Bengal for many years. He was an old Congressman and he represented the real, old traditions of the Congress. He was a disciple of Sir S. N. Banerjea and he had kept his traditions and standards of public life in that province.

He was the chief leader in forming the Indian National Party in Calcutta. They had to work the reforms, such as they found them, although they might be unsatisfactory, and then ask for more.

Mr. Surendranath Mullick said he was thankful to the Party for asking him to meet them there that afternoon, and thought there must be some psychological reason for these gatherings, both in his own province and in Bombay, and that was to encourage him on the eve of his departure, because he needed their encouragement. He had taken his courage in both his hands in taking up this appointment and thus in discharging his duties.

Coming to the question of communal disturbances in Bengal he said nobody was more sorry than he for what had happened there. He was sorry because Hindus wanted to retaliate for the assaults of Mahomedans on them. But they could not live in this land as wild animals, for there was the third party which was benefitting by their quarrels. He did not think it was impossible, if a sincere effort were made, to bring both the communities together and compose their differences. He thought the present reforms were the only cause of these differences and he saw no other, for they had given the Indians a few more nokris (jobs). He would rather have no reforms at all, if they were going to have these communal disturbances, and less and less confidence between the two communities.

The only way by which the different communities could come together was by doing civic work for common good. In the end he asked them not to encourage racial hatred, whether it was the hatred of Mahomedans or Europeans, for hatred bred hatred and it was impossible for them to refuse to look at the virtues of other people! He thanked them again for their kind words.

HIGH COURT

SENSATIONAL BORAH CASE.

MINOR GIRLS PRODUCED IN COURT.

Further hearing was resumed, before Justice Sir Lallubhai Shah at the High Court, of the case in which one Abdulalli Ismailji, a Dawoodi Bohra, had obtained a rule or Habeas Corpus against Mahmadalli Allabux directing him to produce in Court his two minor daughters who were alleged to have been illegally detained by the latter.

Sir Chimanlal Setalvad, instructed by Messrs. Dabholkar and Co., Solicitors, appeared for the petitioner; while Mr. Bhulabhai J. Desai, Advocate-General, represented the defendant.

It will be recalled that early in April, before the High Court closed for the summer vacation, his Lordship had passed orders directing the respondent to produce the girls in Court on the 8th instant, failing which an attachment order was to be issued against him.

In pursuance to that order, the respondent produced the two girls, Husseina and Amina, in Court yesterday when his Lordship who had been presiding over the Appellate Court since the re-opening of the High Court, sat for the first time on the Original Side.

Sir Chimanlal intimated to the Court that both the girls were married by the petitioner, their father during the vacation, and he had now gone on a pilgrimage to Mecca. Pending his return, he had appointed Amtullabai, his deceised wife's sister, as the guardian of his daughters, and had authorised her to take them in charge during his absence.

As his Lordship wanted to ascertain the wishes of the girls and Amtullabai, the matter was adjourned till after the lunch interval.

After interviewing them in his Chamber for about 45 minutes, his Lordship announced that he would pass the final orders on Tuesday.

ALLEGED ILLEGAL JURISDICTION

A TRANSFER APPLICATION.

Before the Hon. Mr. Justice Facwett and Madgaonker, an application was presented by Mr. M. M. Jhaveri, Advocate, on behalf of one Khodabux Mancherji, a Parsi merchant against the order of the Chief Presidency Magistrate who convicted him of rash and negligent driving and sentenced him to a fine of Rs. 10.

The allegation against the applicant was that on 8th February last, he broke away from the queue of cars formed by the police in the middle and along the Peddar Road, it being a race-day, and was thus guilty of rash and negligent driving. The applicant pleaded in his defence that he came out of the line because he wanted to drive into a bungalow on his right. When he was three or four yards away from the bungalow, he streered his car again to the extreme left to pull up just opposite to the bungalow in the hope that after the whole queue of cars had passed away, he might cross to his right to enter the bungalow with greater safety. While so doing, he never exceeded a speed of 3 miles an hour.

Mr. Jhaveri, for the applicant, contended that the Magistrate had no jurisdiction to try the case, as the alleged offence occurred at Peddar Road which was within the limits of Girgaon Ward. Further the applicant had caused no danger either to the traffic or to the occupants of the car, and had, under the circumstances, acted to the best of his judgment.

Counsel submitted that the conviction and sentence should be set aside, or the case might be transferred to a competent Magistrate having jurisdiction to try it.

Their Lordships admitted the application, and called for a report from the Chief Presidency Magistrate on the case.

STATION MASTER IN TROUBLE

SERIONS ALLEGATIONS.

In this matter the rule was granted by the Chief Justice Sir Norman Macleod and Sir Laloobhai Shah to show cause why the case be not committed to the Sessions Court at Thana or be transferred to any other competent court.

The facts are that on or about 23rd July, 1925, at about 8 p.m. one Sukhadeo Poonor, was lying on a bench on the platform at the Bassein Road Station of the B..B & C.I. Railway with a ticket for Virar. The Deputy Station Master Rudraji, accused No. 1 came to Sukhadeo and abused him for sleeping on the bench and called upon him to produce his ticket. Sukhadeo showed the ticket and put it back into his pocket. The Deputy Station Master continued to abuse Sukhadeo and demanded the ticket. But Sukhadeo continued to lie down on the bench whereupon the Deputy Station Master assaulted Sukhadeo with fist blows and there ensued a struggle between the two, so much so that the Deputy Station Master called to his aid his brother accused No. 2 and the railway Pathan, accused No. 5, who held Sukhadeo down and belaboured him. Accused Nos. 3 and 4 licensed vendors at the station ran to the assistance of the Deputy Station Master and held Sukhadeo down and beat him. The Deputy Station Master then put hand into the pocket of Sukhadeo and took out from the pocket of Sukhadeo one ticket and five currency notes of ten rupees each and some six rupee coins with some loose change by tearing open the pocket. Some rupees fell on the platform and they were picked up by the accused Nos. 3 and 4. They handed those rupees to the Deputy Station Master. The Deputy Station Master, accused No. 1 without returning anything to Sukhadeo got him turn out of the platform with the aid of the other accused. Sukhadeo borrowed rupees from his friend and returned to the Bassein Road Station to send a telegram to the Deputy Police Railway Superintendent at the Grant Road Station but the accused No. 1 prevented the telegram being sent. So Sukhadeo went to Bandra and attempted to send a telegram from that station but the telegram was not accepted. So Sukhadeo had to go to Bandra Post Office at 10 p.m. and from the Government Telegraph Office he sent a telegram giving the names of all the accused and the amount of the rupees robbed. On the next day Sukhadeo was treated medically at the Bassein Dispensary.

COMPLAINT IN BASSEIN COURT.

On the 5th of August, 1925, Sukhadeo filed a complaint against the five accused in the Court of the First Class Magistrate at Bassein. Before this court all the witnesses for the prosecution including three eye-witnesses have been examined and cross-examined and the trying magistrate came to the conclusion that there was sufficient evidence to raise a presumption that the offence of dacoity under Section 395 of the Indian Penal Code has been committed and so he recorded the pleas of all the accused. But the accused Nos. 1, 2 and 5 requested the Court to hear the defence evidence before any charge was framed and so two witnesses for the defence were examined and Mr. Penshe, the trying Magistrate went on leave and he was succeeded by a second class magistrate and so the case was transferred by the District Magistrate of Thana to the file of the First Class Magistrate at Palghar Mr. Bapat. Mr. Bapat at the request of the accused ordered that the case be heard "de novo" though there had been some thirty bearings. The rule was granted against this order and it was made absolute by Mr. Justice Fawcett and Mr. Justice The High Court set aside the order of Mr. Bapat which meant one year's more delay and sent the case back to the Court of Mr. Penshe at Bassein who has returned from leave to be dealt with according to law.

Mr. R. S. Navalkar appeared for the Petitoner. There was no appearance for the Crown. The accused were represented by the Counsel Mr. Daphtary instructed by Messrs. Crawford and Brown and Co., Attorneys.

VICEROY'S SYMPATHY

RANGOON, June 10.

The following telegram from His Excellency the Viceroy has been received by His Excellency the Governor of Burma:—"Please express my sympathy to the sufferers from the destructive cyclon in Arakan."—A. P.

A BID FOR THRONE.

AN AFGHAN PRINCE'S ADVENTURE.

A RUSE THAT FAILED.

RANGOON, June 10.

The "Rangoon Times" published to-day an interview with Abdul Karim Khan, one time Prince of Afghanistan and now a political prisoner sent to Burma by the Indian Government. In the course of the interview Abdul Karim Khan said when his father, the old Amir, died there was general upheaval in Afghanistan and the country was filled with intrigues, plots and counter plots were being hatched and in the end he had to leave Afghanistan.

WITHIN AN ACE OF SUCCESS.

He toured the world and on his return to the East he tried to gain admittance into Afghanistan. He found he had a following and entered the country. He then announced himself as the son of the old Amir and people flocked to him. In a short time he had collected about 40,000 men and with these men he attempted to obtain the throne of Afghanistan. He then narrated that his attempt was partially successful and although his opponents were nearly 90,000 strong at the end of several months fighting, he found himself entrenched in a strong position. His enemy would not advance so he ordered his men to pretend they were running away in order to lure his enemy forward. This ruse was successful and his enemy's men were drawn into the open. Before, however, any decisive action could be fought snow began to take a hand in the game. The result was that both sides expressed a desire that three months truce should be observed. This was agreed to. His three wives were in Afghanistan and he could not go to see them for fear that he would be taken as a prisoner. His son was being educated in India. So he went thither as he was anxious to see him. When he arrived at the house of his brother-in-law, who was an important Zemindar and Collector, he was placed under arrest.

It will be remembered that Abdul Karim Khan is one of the three Afghan detenues brought from Dehra Dun to Meiktila.—A.P.

FIRE IN SITARAM BUILDING.

A GREAT DISASTER AVERTED

The Crawford Market locality was the scene of great commotion on Thursday night at about 11.30 p.m. when it was known that the ground floor of Sitaram Building on the Market Road (next to the Fruit Market) was ablaze.

It appears that the godown which belongs to the National Stores dealers in provisions, and is owned by Messrs. Behram Murzban and Khodadad Murzban was closed on Thursday evening as usual. The rear portion of the store contained empty cases of beer, etc.

After the alarm had been raised several fire brigades were on the scene and the conflagration was brought under control in a short time. Thus a great disaster was averted by timely arrival of the fire brigades.

A little later, however, smoke was seen issuing from adjoining provision shops, belonging to Mr. Behram Khodad Irani and also from the National Stores. Both these shops were opened and after water was played into them, the fire was finally extinguished.

The National Stores is covered by insurance to the extent of Rs. 1,50,000 with the New Indian Insurance Company. The building where the fire occurred is a two-storied structure, the first and second floors of which are occupied eby Hindu and Mahomedan families, while the ground floor is occupied by shops of various kinds.

The cause of the fire is not known.

of the British Government, who would see to it that the application of the proceeds was strictly for the purposes for which the tax was levied. All this makes it clear that the British Government recognised the Thakore's obligation effectually to protect the Jain Committee.

The Palitana Durbar appealed to the Secretary of State against the orders of the Bombay Government, but the Secretary of State declined to accept the views of Major Keatinge and confirmed the orders of the Bombay Government of 1866 which continued in operation till 1881. During this period numerous disputes arose between the Durbar and the Jain community which were dealt with by the Agency authorities.

The system of counting pilgrims and levying payment from them was tried, but was found to be unworkable; and the Government and the Agency came to the conclusion that the only desirable course was to follow the old arrangement of a fixed annual payment and parties were, therefore, asked to put their heads together and arrived at a solution on the same lines. The result was the Agreement of 1886

SACRED HILLS OF SHATRUNJAYA.

JAINS AND PALITANA DURBAR.

(BY M. J. MEHTA, BAR-AT-LAW).

II.

Let us now cast a glance at the origin and nature of the connection between the Palitana Durbar and the Jain community going in pilgrimage to Shatrunjaya.

The earliest traces of the advent of the Gohel Rajput, to which clan the Palitana Durbar belongs, are found somewhere in the 13th century. The ancestors of the present Palitana Durbar established their first seat at Mandvi, and then came to Gariadhar—a small town in Palitana State; and finally removed themselves to Palitana at a much later date. For the immediate protection of the pilgrims and their property more effectively by some locally stationed force, the Jains entered into a contract with the ancestors of the present Palitana (Durbar in A.D. 1651 whereby the latter guaranteed protection to the Jain pilgrims coming to the Hill and undertook to recompense them for any property that may be lost. The Jains, in return, agreed to make them certain payments. This definite agreement clearly shows that the ancestors of the Palitana Durbar had not, and did not claim, any sovereign or controlling powers over the Shatrunjaya Hill, but that they merely undertook the protection of the Jain pilgrims from molestation by freebooters or knights of the highway in consideration of a money payment for rendering such services.

A Permanent Agreement.

Contractual relations of this character were continued between the Jain community and the Palitana Durbar after the establishment of the Kathiawar Political Agency in 1820. Fresh contracts of the same kind were entered into from time to time through the intervention of the British Government as the bulk of the Jain community were either British subjects or subjects of other Indian States. On the 9th December, 1821, an agreement was arrived at between the Palitana Durbar and Sheth Anandji Kallianji on behalf of the Jain community through the intervention of Capt. Barnwell, the then Political Agent. It was agreed for ten years commencing with November 1821, to pay Rs. 4,500 per annum in full settlement of the Durbar's claims for the protection and watch and ward of the pilgrims going to the Hill. "We will thoroughly guard and protect the company of Shrawaks of diverse people who shall arrive on pilgrimage, and will not allow the pilgrim people to suffer annoyance in any way," expressly stipulates the Palitana Durbar in this agreement; and the agreement adds, "Should any person sustain loss by robbery or theft then for that we will make restitution." All other claims and dues of whatsoever kind the Thakore expressly foregoes in this agreement. How can such an agreement be even conceived if the payment made to the Durbar was in the nature of a tax in the slightest degree?

Though originally made for ten years only, this agreement of 1821 was acted upon for nearly 40 years and the same uniform payment of Rs. 4,500 was made every year during that period.

In 1860, the Durbar desired a cancellation of the Agreement and in 1863 a representation was sent by the Durbar to the Government of Bombay. The Durbar therein contended that the Agreement of 1821 was not in the nature of perpetual commutation of the Rakhopa money (Watch and Ward dues) but was simply a settlement for ten years. The Jain community, on the other hand, contended that the agreement was intended to be perpetual.

The dispute was referred by the Government of Bombay to Major Keatinge who after an inquiry fixed the annual payment at Rs. 10,000. He made that sum unalterable for a period of two years, and gave liberty to either party to call for a revision of the amount which was then to be fixed by the Agency.

Rakhopa Payment Not a Tax.

It must be observed that the sum of Rs. 10,000 fixed by Col. Keatinge was fixed not merely on the number of pilgrims supposed to be visiting the hill. This award was forwarded by Major Keatinge to the Government of Bombay who ultimately gave their decision on the 6th February, 1866. They confirmed the award of Col. Keatinge. In doing so they said that "the award should include all demands of the Shrawaks who should receive credit for any payments which the Thakore Saheb may take from them on any pretext, and for this sum the Shravaks should be guaranteed efficient police protection for their persons and property." They further said that " Should any tax be imposed for sanitary purposes such tax, I am to observe, must be imposed only with the consent of the British Government and will not be allowed to the Thakore Saheb of Palitana as personal income; but will be strictly secured for appropriation to the purposes for which it is to be raised." These orders again clearly bring out and emphasize the position that the Durbar has not full sovereignty and authority over the Shatrunjaya Hill; and that the British Government recognised the obligation on them to protect the vested interests and rights of a large body of British subjects. They further say that the Rakhopa payment was not a tax for revenue purposes but was merely a payment to be made return of certain services. This is apparent from the stipulation that for the sum Rs. 10,000 to be paid by the Shrawaks they should be guaranteed effective police protection of their persons and property. The fact that the Rakhopa payment was not a tax is clearly emphasised by the fact that it was always recognised and accepted that the Durbar was bound to compensate the pilgrims for any loss that may occur to them. In 1874 a pilgrim sustained a loss in respect of which the Durbar after proceedings before the Political Agent paid Rs. 4,300 to the pilgrim in 1876. It was further laid down that any tax imposed for sanitary purposes must be imposed with the consent

Progress is Nature's Way

The growth and healthy development of the child shows this in so many ways; at first he is so helpless—soon he learns to crawl—then to walk—and later to run. In like way at the same time his mental powers and other faculties develop. Nature demands that the child's feeding too, should be progressive, adequate to build him up, and to keep pace with his increasing digestive capacity.

'Allenburys'

Progressive System of Infant Feeding

Modelled on Nature, supplies the foods specially adapted to baby's needs and powers of digestion. This system is not an experiment; its merits have been proved every day for the last forty years. To-day more than ever it is recognised by those who know from experience to be the highest standard of Infant Feeding.

Make your Teeth Strong with Kalzana

Very few people get enough calcium from their ordinary food. Yet medical science insists that it is the most important of all the minerals needed by the body. Kalzana is calcium in a palatable, easily digested form. Take a few tablets daily and provide your system with the material it needs to form strong, sound teeth, capable of lasting a life-time.

A Doctor of Dental Surgery writes: *"Kalzana makes the teeth strong and hard and so stops tooth-decay. I have often seen extraordinary results even after a few weeks' use."*

Look at your children's teeth. If the first set shows decay take heed of nature's warning. Let Kalzana help to produce a perfect second set. The most persistent use of the tooth-brush cannot indefinitely protect weak, poor quality teeth against decay.

Expectant and nursing mothers need Kalzana. It makes good the excessive loss of calcium, protects the teeth against decay and secures strong, safe teeth to their children.

PHOSFERINE Brings Out Best Form

F. W. Donisthorpe, Lawn Tennis Professional Champion of Great Britain and Holder of the Hundred Guinea Trophy for 1924 *writes:*—

"I PUT down the success of my play this year entirely to the regular use of Phosferine on occasions when it has been necessary to bring out my best form. Coaching as I do for nine hours a day, not only during the summer but throughout the long winter evenings by artificial light, tends to make one's play somewhat listless, but the extraordinary energy and nerve producing powers of Phosferine are capable of adding the virile dash of the amateur to the machine-like accuracy of the professional player, who is for ever hitting the ball on scientific principles. Wimbledon will not see all its Challenge Cups taken abroad when the Phosferine Professionals enter for the Championships!"

From the very first day you take PHOSFERINE you will gain new confidence, new life, new endurance. It makes you eat better and sleep better, and you will look as fit as you feel. Phosferine is given with equally good results to the children

CONGRESS PRESIDENTSHIP.

II.

TO THE EDITOR OF "THE CHRONICLE."

Sir.—It is time that some thought should be bestowed on the question of Presidentship for the ensuing Congress at Gauhati. While the leaders and workers have been concentrating all their attention on the ensuing general elections, very few leaders, indeed, are devoting their time and energy to the solution of the Hindu-Muslim problem, on which, more than anything else, the attainment of Swarajya depends. There are many leaders, who can fill the place with honour, but at this juncture, we must find a man, who commands the confidence of both the communities, Hindu and Muslim, by his broadmindedness and impartiality, and the requisite moral courage to rise above petty communal squabbles that have disgraced Mother Ind, during the last two or three years. I appeal to all the members of the various Provincial Congress Committees to deeply ponder over this aspect of the question and choose a man who is above all suspicion, and whose public conduct is unimpeachable. As a Hindu myself, I would prefer a Muslim President, this year, if a man of the calibre, I mentioned is available. To my mind, Dr. M. A. Ansari will be an excellent choice. He is free from the bigotry and fanaticism, noticeable in most Muslim leaders and I trust, he can rise to the occasion and contribute something at least to the solution of this knotty problem, on which, depends the very existence of India as a nation. Let not our leaders and workers be carried away by the impression, that the President should be a rabid councilwallah, who is expected to give a dynamic programme in the councils. Set your house first in order, and dynamic programmes will follow suit.—Yours, etc.

TO THE EDITOR OF "THE CHRONICLE."

Sir,—The Maharashtra Provincial Congress Committee has sent in its recommendations as to who should preside over the Assam session of the Indian National Congress. I take this opportunity to request the Bombay Provincial Congress Committee to make only one recommendation viz. that Mr. B. G. Horniman be elected. It is not necessary to canvass his claims; his seven years' exile is by itself sufficient to justify his election not to mention the seven years' active service that he rendered to the cause of Indian nationalism in general and of the Indian National Congress in particular.—Yours, etc.

ANGLO-INDIAN UNEMPLOYMENT

CALCUTTA, June 10.

Addressing a meeting of the Bengal Presidency Council of Women at Government House, to-day, Sir George Godfrey, president of the Anglo-Indian Unemployment Relief Committee, said that it had done useful work in educational and other spheres and had found jobs for no less than 700 persons. He, however, made the unexpected suggestion that it was time to close down the work of the committee, maintaining that care of the unemployed was primarily the work of the State and could not satisfactorily be tackled by voluntary effort. He also informed the audience that the Executive of the Bengal Government agreed with his views in this respect, but deplored the fact that amid futile political manouvres of the last two and half years in Bengal this important aspect of Bengal's domestic life had taken a back seat.—Free Press.

THE EASIEST WAY TO STOP INDIGESTION

Trouble is very easy to find, but often not so easily remedied. There are, however, some exceptions, and one is the easy way you can stop indigestion and all stomach troubles which frequently spoil appetite, health, work and play. Digestive disorders are very largely due to acidity and fermentation, which throw out of gear and disorganize the whole internal system very much in the same way that a piece of grit in the works stops a watch. Having found the trouble, the obvious way to relieve it is to remove the cause, in the case of your indigestion, by neutralizing the acidity quickly, surely, and safely with 'Bisurated' Magnesia, the remedy which, by reason of its proved unfailing efficacy, has become the recognized eliminator of all troubles arising from disordered stomach conditions. Doctors recommend 'Bisurated' Magnesia, and it is used in many hospitals for patients whose digestions are below par through illness. You can get 'Bisurated' Magnesia from your chemist in either powder or tablets, and you can rest assured that in the contents of the well-known blue package you have the finest thing known for digestive troubles.
